

Dmitrii Cherviakov

Senior iOS Developer

BIO

Senior iOS Developer with 9+ years of experience building scalable, high-performance mobile applications. Strong expertise in **Swift** and **SwiftUI**, with a focus on architecture, stability, and developer productivity. Led a sub-team of **10** engineers within large-scale products, achieving **99%** crash-free sessions for apps with **400K MAU**. Currently focused on **AI-driven development workflows** that multiply engineering velocity without compromising quality.

WORK EXPERIENCE

Senior iOS Developer 2025 – present
GrowDiaries, Barcelona, Spain

- Built a social-network iOS app from the ground up as the sole iOS developer – pure **SwiftUI** and **The Composable Architecture (TCA)**
- Engineered an **AI-driven development workflow** – agentic coding pipelines with automated verification loops and testing guardrails – that lifted every measured productivity metric year-over-year: **+81% code output**, **+47% delivery cadence**, and **+38% feature throughput**

Lead iOS Developer 2024 – 2025
Senior iOS Developer 2021 – 2024
Alfa-bank, Remote

- Led a sub-team of **10** developers within a 35-engineer iOS organization, fostering collaboration, mentorship, and technical growth
- Owned application stability and performance, maintaining **99% crash-free users** at **400K MAU**
- Revamped navigation by introducing the **Coordinator pattern**, significantly improving deep-linking reliability and overall usability. Delivered comprehensive documentation and led multiple presentations to ensure successful adoption across teams

Lead iOS Developer 2020 – 2021
FBS Inc., St Petersburg, Russia

- Improved collaboration between developers, QA, and management, stabilizing the release process and reducing overtime
- Conducted interviews and doubled the size of the iOS team

iOS Developer 2019 – 2020
EPAM Systems, St Petersburg, Russia

- Developed FAQ module with advanced navigation and achieved **90%** unit test coverage

iOS Developer 2017 – 2019
Haulmont Technology, Samara, Russia

- Conducted redesign for white label application for taxi companies.
- Communicated with the customers and negotiated requirements for the apps

SKILLS

- Swift
- SwiftUI
- TCA
- SnapKit
- Alamofire
- GRPC
- VIPER
- MVVM with Coordinators
- DDD
- TDD
- CI/CD
- Objective-C
- TeamCity
- Sketch/Figma
- Charles/Proxyman

EDUCATION

Volga State University of Telecommunications and Informatics
Master
Honors degree in computer science
Samara, Russia – 2017

Samara State Aerospace University
Bachelor
Mechatronics, Robotics and automation engineering
Samara, Russia – 2015

LANGUAGE

- English (C1)
- Russian (native)
- Spanish (A2)
